Moderator of General Assembly,

34 Charles Street East, Toronto.

My dear Dr. Neil:

I regret very much that I shall not be able to be present at the meeting of the Assembly's Committee on Emergencies which you have called for Wednesday, May first, as on that day I am to be in Cleveland filling an important engagement of several weeks' standing. If I could have a few moments to talk the matter over with you some time I should be glad to do so.

With kind regards, I am,

Knowing that your physical laboratory, which prof. McLennan kindly showed me last Fall, is one of the best equipped laboratories, I am anxious to know about it in detail. If it is not in violation of your rule, will you favor me with a few blue prints or any other sketches which will show its general construction and equipments?

Hoping to hear from you soon, and wishing you best regards.

Most Cordially Yours.

My dear President Nollen:

I have to thank you for your kind invitation to be present at the Association of American Colleges in Chicago next January. I regret, however, that owing to a meeting of the Board of Governors of the University being held on one of these days I shall find it very difficult to make arrangements to be present with you, and I think that my only safe course is to say that I must decline your kind invitation.

I am,

Yours sincerely,

President.
